Yes, Senator the Plan will be very simple to implement...
and cost effective too!

Owls, AMAs,
Survey & Manage,
LSRs, watersheds, RIECs,
Riparian Reserves...
that's not confusing?
Yikes!

Finally...
with this new
plan I'll never be
frustrated again!

I'm sure we will all agree on how to interpret this new plan!

Hey everyone,
this guy thinks he can manage
both FOREST HABITAT
and PRODUCTS!

Now can we finally work together on the Northwest Forest Plan?
Yes...yes.. granted we can all agree on the exact meaning of phrases, guidelines and operating procedures!
